

Immersive Tech Event

Welcome to LLInC's Immersive Tech Event, 'New Beginnings'!

This is a day without precedent at Leiden University, packed with presentations, workshops, and demos from your colleagues across every faculty of the university.

Whether you're an Extended Reality (XR) expert or the term remains still somewhat unclear, we're thrilled to see you here and encourage you to take this as an opportunity to challenge yourself with an open mind, trying out new technologies, daring to ask questions, and voicing your opinions.

Below, you will find the times and locations for all presentations, workshops, demos, refreshments, and discussion sessions. If you would like to access both this programme and the Extended Reality Glossary in an online format, please don't hesitate to use the QR codes found on both documents in their printed forms.

We hope you have a fantastic and highly insightful day and look forward to the discussions to come!
