

SPRING SYMPOSIUM

PROGRAM 4 April 2023 09.30 – 17.30 hours

Lectures – Gorleaus lecture hall 2 (morning), lecture hall 1 (afternoon)

Poster Sessions – Atrium

Chair: Prof. dr. Matthias Barz

- 09.45 Welcome and opening: Prof. dr. Matthias Barz
- 09.50 Keynote speaker: Dr. Mustafa Diken (vice president vaccines and immunology and director TRON)
'Evolution of mRNA vaccines'
- 10.35 Break
- 10.45 Yunjiao Wu – LACDR
'Will the glomerular filtration rate of preterm neonates catch up to their term peers?'
- 11.00 Panagiota Papadopoulou – LIC
'Cell selective targeting of lipid nanoparticles'
- 11.15 Marina Gorostiola Gonzalez – LACDR
'Accelerating personalized oncology: AI and structural methods in oncological drug discovery'
- 11.30 Salma Assil – CHDR
'Characterization of cutaneous pharmacological models in early clinical drug development'
- 12.00 Poster session 1 in Atrium
Lunch sandwiches available
- 13.30 Fernando Lozano Vigarío – LACDR
'Liposome-based tolerogenic vaccines against atherosclerosis'
- 13.45 Marlien Admiraal-Van Mever – LACDR
'Probing the effects of cortisol and specific receptor involvement in zebrafish larvae using a CE-MS metabolomics workflow'
- 14.00 Lianne Manson – LUMC-KFT
'Pharmacogenetics – the time for implementation is now!'
- 14.15 Anita Liao – LACDR
'Medium throughput 3D co-culture models for drug discovery & development in cancer immunity'
- 14.30 Maurits Vissers – CHDR
'A step forward for LRRK2 inhibitors in Parkinson's disease'
- 14.45 Break
- 15.15 Poster session 2 in Atrium
- 16.15 Drinks
- 16.45 Presentation of the best PhD presenter and the winners of the poster competition
Closing
