

# The LED3 2022/2023 Chemical Biology Talks:

## OPENING LECTURE

**June 27<sup>th</sup> 2022 – 16:00**

**Prof. Craig Crews (Yale, USA)**

**September 28<sup>th</sup> 2022 16:00**

**Prof. Carolyn Bertozzi (Stanford, USA)**

**Bioorthogonal chemistry**

**November 24<sup>th</sup> 2022 – 16:00**

**Prof. Tom Grossmann (VU, Amsterdam)**

**Proteomimetic therapeutics**

**February 23<sup>th</sup> 2023 – 16:00**

**Prof. Dario Neri (ETH, Switzerland)**

**Combinatorial drug discovery**

**April 20<sup>th</sup> 2023 – 16:00**

**Prof. Christian Ottmann (Eindhoven, NL)**

**Molecular glues**

**June 29<sup>th</sup> 2023 – 16:00**

**Prof. Kathrin Lang (ETH, Switzerland)**

**Genetic code expansion**

**October 27<sup>th</sup> 2022**

**Prof. Akane Kawamura (Oxford, UK)**

**Cyclic peptides**

**January 26<sup>th</sup> 2023 – 16:00**

**Prof. Christian Heinis (EPFL, Switzerland)**

**Peptide based therapeutics**

**March 30<sup>th</sup> 2023 – 16:00**

**Prof. Gonçalo Bernardes (Cambridge, UK)**

**Synthetic protein modifications**

**May 25<sup>th</sup> 2023 – 16:00**

**Prof. Dirk Trauner (UPenn, USA)**

**Neural system targeting compounds**

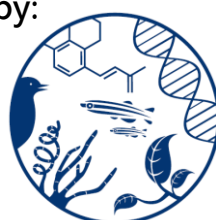

**ROOMS WILL BE ANNOUNCED FOR EACH TALK**

This seminar is part of the Leiden Early Drug Discovery & Development (LED3) chemical biology lecture series  
brought to you by:

**Universiteit  
Leiden**  
Institute of Chemistry

**LACDR**

**Institute  
of Biology  
Leiden**
