

# GRANT NEWSLETTER February 2021

## Corona and research

The outbreak of the new Corona virus has great impact on everyone's lives. In this newsletter you'll find additional information, in particular for researchers at the Faculty of Social and Behavioural Sciences.

Over all, funding organizations have taken measures effecting the grant process.

We urgently advise to check the websites for the possibly changed deadlines, updates and other important information.

---

**Pre-award:** This newsletter contains an overview of grants that could be interesting for our scientific staff. The Faculty is happy to offer support with your application. For more information, please contact Hester Bergsma.

Email: [h.w.bergsma@fsw.leidenuniv.nl](mailto:h.w.bergsma@fsw.leidenuniv.nl) or at [researchdesk@fsw.leidenuniv.nl](mailto:researchdesk@fsw.leidenuniv.nl)

Phone number: +31 71 527 7916

**Post-award:** Obtained a grant? Congratulations! Please consult Anita Wagemaker for matters such as legal verification of the contract and obtaining the correct signatures.

Email: [researchdesk@fsw.leidenuniv.nl](mailto:researchdesk@fsw.leidenuniv.nl)

Phone number: +31 71 527 7352

If you consider applying for a grant, be aware that it might take some time to obtain mandatory forms and signatures as well as legal checks.

Luris has provided a handy overview of things to think of/consider when writing a grant:

Please also take into account the rules with regard to 'working for third parties':

## Special Note

### ➡ NWO/NRO network hack

Due to a hack of the NWO network servers it is impossible for NWO to carry out its primary process - funding science. All related activities, from the opening of new calls to the assessment process, have therefore been suspended until further notice. Mails to NWO staff will not be delivered, and will therefore remain unanswered. A form has been opened to answer questions of relations of NWO. A team of specialists within NWO will

provide an answer as soon as possible, and post the answer on a Frequently Asked Questions (FAQ) page. So before submitting a question, please check whether your question may already have been answered.

### ➡ ERC Starting and Consolidating Grants: update

The latest information on the ERC website is that the Starting Grant deadline is extended until 8 April (deadline for Consolidator Grant is 20 April). We call will open on 25 February. For Consolidator Grants the expected deadline is 20 April, with the call expected to open on 11 March.

On 5 February ERC published a [statement](#)

The reason for the delay is because the 7 year budget for Horizon Europe was only approved at the end of the December, this has resulted in a delay in approval of the Horizon Europe programme as a whole, of which the ERC 2021-2027 programme is one.

## **FSW Research Support website**

The [FSW Research Support website](#) offers information to scientists at the Faculty of Social and Behavioural Sciences, during the different stages of their research.

The website includes information on finding and applying for grants, writing research proposals, funding and regulations, as well as protocols for safe working practices, manuals for equipment and software, and contact details for supporters.

An important part are currently the [COVID-19 protocols - guidelines](#) for researchers who want to restart their research.

The website is available in English and will be updated regularly.

To keep improving this website, we kindly ask you to [email](#) any suggestions for additional information and your remarks. We intend to keep developing our web pages, so all researchers might profit!

### **NWO: [adjustments in Veni 2021](#): higher budget per application and broader rule regarding applying during doctoral programme**

From the 2021 round onward, NWO will increase the amount to be applied for in the Veni from €250,000 to €280,000. This means that the amount to be applied for will increase for the first time since 2008. The NWO Executive Board has decided to take this step to reduce the pressure on universities to contribute financially to Veni projects. A higher budget means successful applicants will be able to finance a full salary, or at least a large part of it, from the Veni budget.

### **Announcement of possible ROLLING-GRANT FUND**

The rolling grant fund for unfettered research provides working capital in the form of research grants to assistant, associate and full professors with a permanent appointment. They can use these at different points in their scientific careers so that they can continue to develop.

The Rolling Grant fund has not been implemented yet. We, at the Researchdesk will be monitoring developments closely and keep you informed.

## **Covid-19 Research**

### **Resilient Society Platform**

The current COVID-19 crisis poses many societal and academic challenges. In aim to address these challenges the independent Resilient Society Platform is initiated, which originated in TU Delft and is supported by the VSNU.

It calls for academics and students to be involved.

[Resilient Society Platform](#) serves as an online knowledge broker. It aims to connect COVID-19 related questions to solutions and organizes online work sessions. The platform is open for researchers from all domains. It cooperates with the [SSH & COVID-19 initiative](#). So far, over a hundred organizations have joined. In concrete terms, the platform is looking for:

- Researchers who can submit [challenges](#) and [solutions](#) online or via [e-mail](#);
- Students to act as knowledge brokers, facilitators and communicators (see separate attachment for a recruitment text);
- Reviewers to assess whether suggested challenges meet the goals and quality criteria of the platform. Reviewers can contact the platform via [e-mail](#).

## Impact

### Knowledge utilisation to create impact - NWO

Besides scientific impact, research should also have a societal impact and contribute to solving societal issues. Within the social sciences and humanities domain, much knowledge and experience has been gained in facilitating the societal impact of research, for example within the many

thematic programmes and international collaborations.

Research manuals have been developed to help social sciences and humanities researchers set up collaborative programmes and projects.

## Urgent onderzoek

Het NRO heeft in toenemende mate te maken met het uitzetten van onderzoek naar urgente vragen met een korte looptijd en een relatief klein bedrag waarbij het van belang is dat er snel gestart kan worden. De gebruikelijke procedure is hiervoor ongeschikt, onder andere vanwege de grote investering aan de kant van aanvragers en de langere doorlooptijd. Het NRO heeft daarom een nieuwe procedure ontwikkeld voor het snel starten van relatief kort onderzoek naar urgente vragen. Vanaf 19 november 2019 kan het NRO de registraties in de database gebruiken voor het uitzetten van kleine subsidies.
