

GRANT NEWSLETTER March 2020

Corona and research

The outbreak of the new Corona virus has great impact on everyone's lives. In this newsletter you'll find additional information, in particular for researchers at the Faculty of Social and Behavioural Sciences.

Over all, funding organizations have taken measures effecting the grant process. We urgently advise to check the websites for the possibly changed deadlines, updates and other important information.

[European Research Council](#)

[NWO](#)

[NRO](#)

[Horizon 2020](#)

[ZonMw](#)

[KNAW](#)

All researchers within our faculty, who currently are involved in doing research financed by an external party, have received an email from Hester Bergsma on Thursday 19 March.

We understand you might be experiencing problems in carrying out your research as funded by the external parties.

We would much appreciate a brief response to the following questions (if these are relevant to your situation):

1. Are you indeed experiencing difficulties in carrying out your research? Short-term? And do you foresee problems for the longer-term?
2. Do you have a back-up plan/ an alternative approach? Is that at all possible?
3. Is extension of your project necessary?

With this information we will be able to give more targeted information and feedback to the fund givers themselves (possibly via Luris or Academic Affairs), and the Researchdesk might be able to give you some kind of support.

We wish you all the best in these unsettling times,

Hester Bergsma & Anita Wagemaker

Pre-award: This newsletter contains an overview of grants that could be interesting for our scientific staff. The Faculty is happy to offer support with your application. For more information, please contact Hester Bergsma.

Email: h.w.bergsma@fsw.leidenuniv.nl

Phone number: +31 71 527 7916

Post-award: Obtained a grant? Congratulations! Please consult Anita Wagemaker for matters such as legal verification of the contract and obtaining the correct signatures.

Email: researchdesk@fsw.leidenuniv.nl

Phone number: +31 71 527 7352

If you consider applying for a grant, be aware that it might take some time to obtain mandatory forms and signatures as well as legal checks.

Luris has provided a handy overview of things to think of/consider when writing a grant:

<https://www.staff.universiteit leiden.nl/research/research-funding?cf=social-and-behavioural-sciences&cd=fsw-board-office>

Please also take into account the rules with regard to 'working for third parties':

<https://www.organisatiegids.universiteit leiden.nl/en/regulations/general/regulations-on-working-for-third-parties>

Special Note

Odissei: Call for Proposals free access to CBS microdata

The ODISSEI Microdata Access Grant (MAG) offers researchers working for an ODISSEI participant free access to CBS Microdata. The 2020 round started on 20 February. Junior researchers in particular are invited to submit a proposal. With the available budget, eight projects can use CBS Microdata free of charge.

Deadline: 30 April 2020

An important change in planning for ERC 2021-2022 calls for proposals (Starting, Consolidator, Advanced Grants, PoC).

As in previous transitions between consecutive EU research and innovation framework programmes, the calendar of the calls in the initial year of Horizon Europe may differ from the calendar of 2020 calls for proposals.

All mono-beneficiary ERC calls (Starting, Consolidator Grant, PoC) are expected to be launched in 2021 and 2022, but their opening and closing dates will be shifted so that the first calls will be launched only in January 2021. The Scientific Council expects the call schedule to be back to the usual opening and closing timeframes by mid-2022.

[More information](#)

NWO to update its data management protocol in January 2020

Starting from 1st January 2020, NWO will update its data management protocol, reinforcing its longstanding commitment to Open Science. The basic principles will remain. NWO emphasizes the importance of responsible data management and expects researchers to carefully manage data resulting from NWO-funded research and prospectively plan for data sharing and preservation.

[More information](#)

NWO introduces narrative CV format in the 2020 Vici round

NWO is going to introduce a uniform narrative curriculum vitae format in the upcoming Vici round. This measure dovetails with a new approach for recognising and rewarding scientists and follows on from the position paper Room for everyone's talent, which NWO recently published with its partners. Moreover, NWO has had good experiences in recent years with the narrative CV in the pre-application pilot for the Veni in the NWO domains SSH, AES and ZonMw.

[More information](#)

Urgent onderzoek

Het NRO heeft in toenemende mate te maken met het uitzetten van onderzoek naar urgente vragen met een korte looptijd en een relatief klein bedrag waarbij het van belang is dat er snel gestart kan worden. De gebruikelijke procedure is hiervoor ongeschikt, onder andere vanwege de grote investering aan de kant van aanvragers en de langere doorlooptijd. Het NRO heeft daarom een nieuwe procedure ontwikkeld voor het snel starten van relatief kort onderzoek naar urgente vragen.

Vanaf 19 november 2019 kan het NRO de registraties in de database gebruiken voor het uitzetten van kleine subsidies. We raden onderzoekers daarom aan om zich zo spoedig mogelijk in de database te registreren.

Impact

Knowledge utilisation to create impact - NWO

Besides scientific impact, research should also have a societal impact and contribute to solving societal issues. Within the social sciences and humanities domain, much knowledge and experience has been gained in facilitating the societal impact of research, for example within the many

thematic programmes and international collaborations.

Research manuals have been developed to help social sciences and humanities researchers set up collaborative programmes and projects.

Horizon 2020

[Horizon 2020](#)
[European Research Council](#)

Net4Society is the international network of National Contact Points for the Societal Challenge 6 ("Europe in a changing world: inclusive, innovative

and reflective societies") in Horizon 2020. National Contact Points (NCPs) are set up to guide researchers in their quest for securing EU funding. Visit their website to be informed on various news items and interesting calls.

[More information](#)

Call: Rights, Equality and Citizenship Programme (REC)

The Rights, Equality and Citizenship Programme contributes to the further development of an area where equality and the rights of persons, as enshrined in the Treaty, the Charter and international human rights conventions, are promoted, protected and effectively implemented.

[More information](#)

- ❖ **Call for proposals to improve the awareness on EU citizenship rights and inclusion of mobile EU citizens and to support coordination among national authorities competent in electoral matters (Rights, Equality and Citizenship Programme)**

Priority 1. The actions aim to enhance and develop citizenship of the Union;

Priority 2. Restricted to public authorities, the actions aim to support national cooperation networks responsible for bringing together the national authorities and bodies involved in elections (such as in their organisation, and in the monitoring and enforcement of legislation)

Deadline: 1 April 2020

[More information](#)

- ❖ **Call for proposals on closing gender gaps over the life-course**

One of the fundamental issues to tackle in order to reach gender equality is the persistence of gender stereotypes. From a very young age onwards, children are exposed to gender roles that shape their self-perception and influence their academic and professional choices as well as expectations of their roles as women and men throughout their life. Furthermore, gender stereotypes keep on influencing choices with regard to employment and combination of work and private life. Digitalisation can in this respect both offer opportunities and challenges to address gender stereotypes.

Deadline: 1 April 2020

[More information](#)

- ❖ **Bridging the divide in health research and innovation – boosting return on investment**

The Innovation Union Scoreboard reveals significant disparities in terms of research and innovation performance among the different member states and regions within the European Union. The disparities are equally present in health research and innovation which unfortunately also translates into lower participation in the Union's research and innovation framework programme, Horizon 2020.

Deadline: 7 April 2020

[More information](#)

Horizon Impact Award 2020

This award is the European Commission's initiative to recognise and celebrate outstanding projects that have used their results to provide value for society.

These projects must have been funded by FP7 and/or Horizon 2020 funding programmes and they must be closed by the time of application.

Deadline: 15 April 2020

[More information](#)

Call: Digital transformation in Health and Care

This call aims at supporting the management of health and wellbeing while empowering the participation of citizens and facilitating the transformation of health and care services to more digitized, person-centred and community-based care models, thereby enabling better access to healthcare and the sustainability of health and care systems. Secure and interoperable data as an enabler together with state of the art technologies such as Artificial Intelligence and Big Data analytics are essential building blocks for the digital transformation of health and care as addressed by this call

Deadline: 22 April 2020

- ❖ **Personalised early risk prediction, prevention and intervention based on Artificial Intelligence and Big Data technologies**
The ageing of the population together with the rising burden of chronic conditions (incl. mental diseases) and multi-morbidity bring an ever increasing demand to strengthen disease prevention and integrate service delivery around people's needs for health and social care.
[More information](#)
- ❖ **International cooperation in smart living environments for ageing people**
Demographic change and the ageing of the population create new heterogeneous challenges for society and, in particular, for ageing people. On top of the health-related age impairments such as poor health, cognitive impairment and frailty, ageing people are at risk of facing situations leading to potential social exclusion with considerable negative consequences for their independence, quality of life, those who care for them, and for the sustainability of health and care systems.
[More information](#)
- ❖ **Pre-commercial Procurement for Digital Health and Care Solutions**
Digital solutions supporting a continuum of care across a range of health and care services can relieve the pressure on governments to provide more cost-effective health and care systems by improving the use of healthcare and health outcomes. In this context the challenges are to network, lead and facilitate health systems research, innovation and digitization in view of addressing key areas of interventions in health and care services including health promotion and disease prevention.
[More information](#)
- ❖ **Scaling up innovation for active and healthy ageing**
The European Commission has promoted scaling up of digital innovation for active and healthy ageing both with research and innovation funding under Horizon 2020 and previous Framework Programmes and with its support for stakeholder partnerships like the European Innovation Partnership on Active and Healthy Ageing with its Regional Reference Sites.
[More information](#)
- ❖ **Supporting deployment of eHealth in low and lower middle income countries in Africa for better health outcomes**
The aim is to support the coordination of a registry of relevant existing e-Health solutions describing their services and potential for low and lower middle income African countries or regions together with a roadmap and strategic implementation plans building on the requirements of end-user communities and policy makers in the target countries.

Marie Curie Research and Innovation Staff Exchange (RISE)

The RISE scheme promotes international and cross-sector collaboration through exchanging research and innovation staff, and sharing knowledge and ideas from research to market (and vice-versa).

The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps to turn creative ideas into innovative products, services or processes.

Deadline: 27 April 2020

[More information](#)

Human factors, and ethical, societal, legal and organizational aspects of using Artificial Intelligence in support of Law Enforcement

Advantages of AI are numerous. However, the lack of transparency of AI technologies and tools complicates their acceptance by users and citizens. Ethical and secure-by-design algorithms are necessary to build trust in this technology, but a broader engagement of civil society on the values to be embedded in AI and the directions for future development is crucial. This fact is generally correct, and it becomes extremely important in the security domain.

Deadline: 27 August 2020

[More information](#)

Better Health and care, economic growth and sustainable health systems

This call will aim at reconciling better health and healthy ageing with the need to develop sustainable health and care systems and growth opportunities for the health and care related industries. The scope of the call may range from prevention, diagnosis, stratified approaches, predictive toxicology, the development of novel and repurposed therapeutic approaches, including medical technologies and advanced therapies, cohorts and registries-based research, to integration of care and systemic digital solutions for health and ageing well. Various calls.

Niels Stensen Fellowship

Since the 1960s, the Niels Stensen Fellowship has been awarded annually to outstanding researchers who recently received their PhD to enable them to gain research experience at a top university or institute abroad. Candidates for the Niels Stensen Fellowship have to meet several requirements to be eligible and need to be nominated by two professors from a Dutch university or research institute. It is not possible for candidates to apply for a grant themselves.

Deadline: 1 May 2020

Bower Award and Prize for Achievement in Science

The Franklin Institute seeks nominations for the 2021 Bower Award and Prize for Achievement in Science of individuals who have made significant contributions to the scientific understanding of decision-making. The interdisciplinary field of decision-making integrates theory and methods from economics, psychology, neuroscience, computer science, and related areas to understand the mechanisms through which individuals and groups choose among competing possibilities and how these mechanisms guide behaviour. Deadline: 31 May 2020

The BBVA Foundation Frontiers of Knowledge Awards

The BBVA Foundation Frontiers of Knowledge Awards, whose thirteenth edition is now open, recognize and reward world-class research and artistic creation, prizing contributions of singular impact for their originality and significance. The name of the scheme is intended to denote not only research work that substantially enlarges the scope of our current knowledge – pushing forward the frontiers of the known world – but also the meeting and overlap of different disciplinary areas and the emergence of new fields.

Deadline: 30 June 2020

Dokter Wittenberg Stichting

De Dokter Wittenberg Stichting verleent subsidies aan projecten die bijdragen aan de terugkeer in de samenleving en de arbeidsmarkt van (uitbehandelde) psychiatrische patiënten. Door de toekenning van financiële bijdragen wordt beoogd initiatieven te ondersteunen die zonder deze ondersteuning niet levensvatbaar zijn. Het kan daarbij gaan om tijdelijke projecten; of liever nog om projecten die na verloop van tijd ook zonder financiële ondersteuning van de Dokter Wittenberg Stichting voortgang vinden.

OTHER: Latin American funding

Visit the Euraxess Brazil & LAC website for funding opportunities.

[More information](#)

Open Society Foundations

The Latin America Program addresses rights and governance issues in Latin America and the Caribbean through grant making, network building, and collaboration with partners. We focus on supporting Latin American and Caribbean efforts to defend democracy and increase governmental transparency, protect minority rights, reduce homicides, and reform drug policy.

The Latin America Program accepts letters of inquiry in English, Spanish or Portuguese. There is no established deadline to submit them, and we review these requests on an ongoing basis.

- **(ESRC) Secondary Data Analysis Initiative (SDAI) - [open call](#)**
The Secondary Data Analysis Initiative aims to deliver high-quality high-impact research through utilising existing data resources created by the ESRC and other agencies in order to address some of the most pressing challenges facing society.
- **(ESRC) UKRI-FAPESP bilateral agreement - [MoU](#)**
UK Research and Innovation (UKRI) and the State of São Paulo Research Foundation (FAPESP) have agreed a pioneering Memorandum of Understanding (MoU) to welcome, encourage and support applications that may cut across their national boundaries and involve international collaborative teams.

New Investigator Grants

New Investigator Grants will support new researchers and academics at the start of their careers to become independent researchers through gaining experience of managing and leading research projects and teams. In addition, they will provide applicants with an opportunity not only to support their own skill development but also the skill development of research staff employed on the grant.

There are no fixed closing dates – you can submit proposals to the call at any time

KNAW Academy advisory report on tracking the impact of research

Consider networks and users when assessing impact of research.

When appraising the societal impact of scientific research in advance, it is important to consider the interactive networks and potential users. That is one of the three recommendations made in the report Maatschappelijke Impact in kaart [Tracking societal impact], published today by the Royal Netherlands Academy of Arts and Sciences. The point is not to chart the impact itself, in other words, but the factors and processes that increase the potential for societal impact.
