# Universiteit Leiden

User Manual
## Set up Thunderbird for IMAP mail

With the help of this user guide, you can configure Thunderbird for the use of your University email account on a Linux computer.
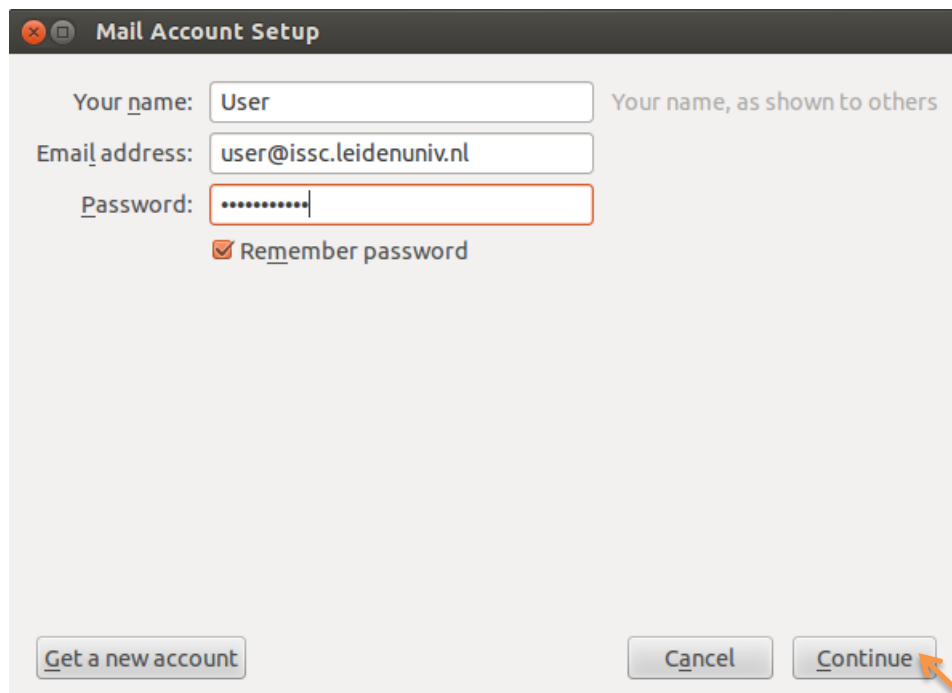

Configure Thunderbird

1) Select "**Edit**" and then "**Account Settings**"

2) Select "**Add Mail Account**"

3) The screen as shown below will appear

Please fill in the following information in the "**Mail Account Setup**" and then press "**Continue**"

Your name:	Surname, Initials
Email address:	Your department Email address
Password:	Your ULCN password

4) Thunderbird will try to auto configure your email, however this will fail.

Please check and correct the following settings and press "**Done**"

	Incoming:	Outgoing:
Protocol	IMAP	SMTP
Server	imaps.campus.leidenuniv.nl	smtps.campus.leidenuniv.nl
SSL	SSL/TLS	STARTTLS
Auth.	Normal password	Normal password
Username:	**Your ULCN username**
