		Woonlandtabel	Nederland	Eindej. uitkering (cum.)		€ 322,12

The amount consists of the net salary plus any reimbursements that are transferred to the corresponding bank account.

The gross salary is the sum of the base salary, allowances, and taxable reimbursements before deduction of wage tax and (pension) contributions.

The net salary is the gross salary after deduction of taxes and social security contributions.

Fields	Explanation
1 Quantity	This column shows all values that ultimately lead to the salary that you receive in your salary account.
2 Basis	The sum total of the value of these salary components determines the value of the basis for calculating the contribution.
3 Normal	These are the payments for which payroll tax is deducted at the normal rate.
4 Special	These are the incidental payments for which payroll tax is deducted according to the rate for special remunerations.
5 Cumulative	These are the cumulative values up to and including the period on the payslip.
6 Part-time %	This shows your part-time percentage. In the case of full-time employment, this is 100%.
7 Salary per hour	The hourly salary that applies for the relevant period. This hourly salary is based on the full-time salary and the maximum number of hours for the Collective Labour Agreement (CAO).
8 Annual salary SR	This is the annual fiscal salary paid in the previous year (used for calculating the special rate %).
9 Special rate %	This is the payroll tax percentage applied to any incidental gross payments.
10 Salary period	Depending on the wage period applied in the payroll calculation, the appropriate table is displayed.
11 Tabelkleur	Depending on the salary period used in the salary calculation, the correct table is displayed
12 Minimum wage	This is the statutory minimum hourly wage in the relevant age category.
